Subject: Construction Activities on LPT's 2301 Renaissance Boulevard Property

This project status report covers on-site work completed on the subject property on 5/10/01 and planned for completion on 5/11/01.

Work Completed on 5/10/01

The primary work completed today included the limited rolling and compaction of soil placed in Basin #2 and the stockpiling of soil/rock obtained from off-site quarries. This material will be used to be subsequently fill in the on-site drainage swale. No intrusive work was completed at the site today.

Anticipated Work for 5/11/01

No intrusive work is anticipated at the site tomorrow. Only limited rolling and compaction of existing filled areas may be completed tomorrow.

Potential Issues

No issues of potential environmental concern were identified at the site today.

Please feel free to give me a call if you have any questions regarding the contents of this project status report or if you require additional information.

Thanks,
Mike
